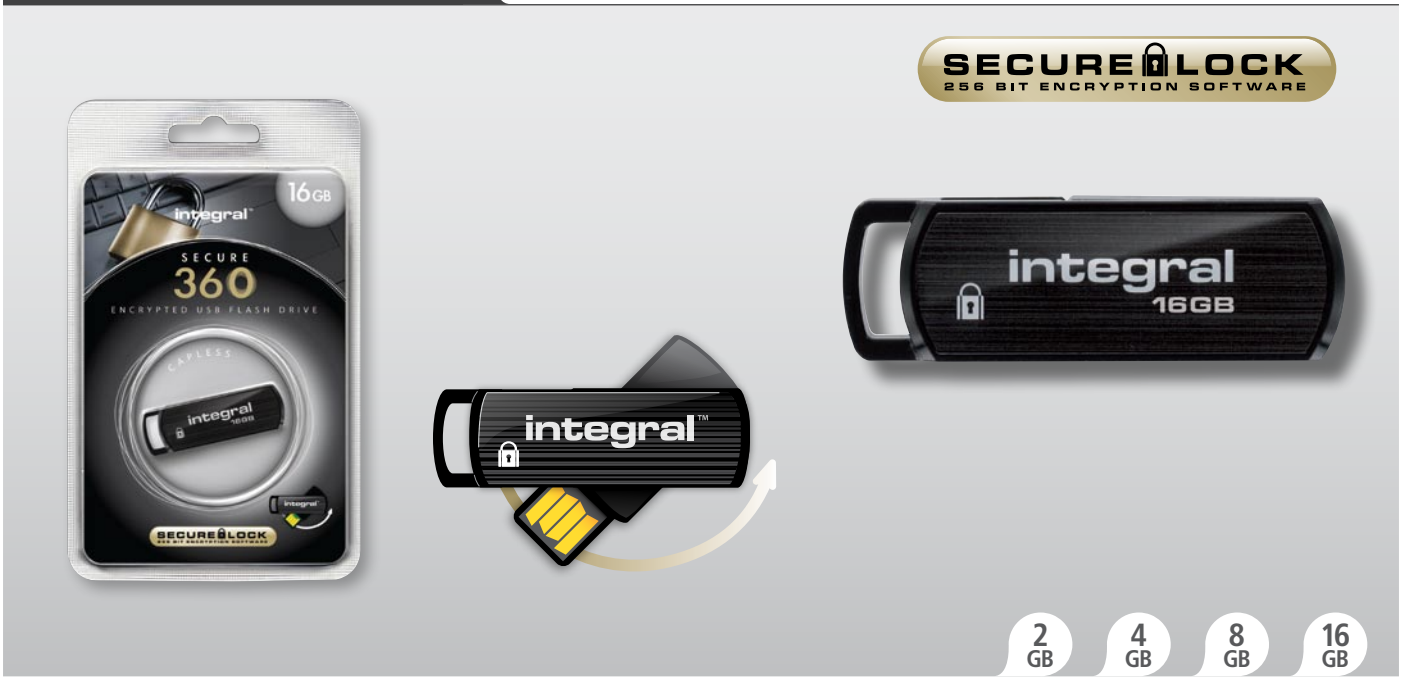
Secure 360 Drive



INTRODUCTION

The Integral Secure 360 Flash Drive has a clever design allowing the USB socket to rotate 360˚ inside the casing, providing easy access to your data and eliminating the need for a cap. Secure 360 includes 'Secure Lock' 256 bit AES encryption software, so you can protect valuable and sensitive data on the move. 'Secure Lock' has an easy to use drag and drop interface for on the fly encryption.

FEATURES

- Capless design, casing rotates 360°
- Stylish black casing
- Includes 'Secure Lock' 256 bit AES encryption software (Windows® only)
- Intelligent Protection - Data will be automatically erased after 10 failed access attempts. Drive is then reset and can be re-used
- Readyboost™ compatible for enhanced Windows Vista® and 7 performance (4GB upwards)
- Unique ID (optional) – The USB Flash Drive can be personalised with a designated company identifying name or number. This will allow a Network Administrator to block access to unrecognised USBs for security purposes, whilst allowing the Integral USB Flash Drive to function as the 'official' company drive.

PRODUCT TYPE

USB Flash Drive

INTERFACE TYPE

Hi-Speed USB

INTERFACE CONNECTIVITY

1x Hi-Speed USB - 4 Pin USB Type A

COMPATIBILITY

Windows ME, 2000, XP, Vista and 7.
Mac OS 09 and Later.

ENVIRONMENTAL PARAMETERS

Min Operating Temperature 0°c
Max Operating Temperature 60°c

COMPLIANT STANDARD

Plug and Play
